

HOSEA TONZAI FAVOUR

Software Engineer

+2348139416441 • hoseatonzaifavour@gmail.com.com

SUMMARY

As a passionate and dedicated Software Developer with 3 years experience, I am eager to contribute my skills in software engineering to your innovative team. With a strong foundation in coding and problem-solving, I am excited about the opportunity to collaborate on cutting-edge projects that push the boundaries of technology. I am committed to continuous learning and growth, and I believe my enthusiasm and technical expertise will make a valuable addition to your organization.

WORK EXPERIENCE

Backend Developer , PQICT Solutions **Mar 2025 - Present**

- Integrated third-party services, expanding functionality effortlessly.
- Conducted code reviews, improving code quality and maintainability.
- Developed robust security protocols, safeguarding user data effectively.
- Collaborated with frontend teams, ensuring seamless user experiences.

Embedded Software Engineer Intern, National Space Research and Development Agency (NASRDA) **Apr 2025 - Sept 2025**

- Conducted rigorous testing, ensuring software reliability and quality.
- Gained hands-on experience with microcontrollers and real-time systems.
- Implemented efficient algorithms, reducing processing time by 30%.

Software Developer, Hunnovate **Aug 2024 - Mar 2025**

- Integrated cutting-edge technologies, driving innovation and market relevance.
 - Collaborated with cross-functional teams, improving project delivery speed.
 - Designed scalable solutions, accommodating 7K+ users seamlessly.
-

EDUCATION

Software Engineering Certificate Programme **Sep 2021 - Oct 2023**
Holberton SChool (Powered by ALX Africa)

- Completed the ALX Software Engineering Programme specializing in backend and system-level programming.
- Gained practical experience with C, Python, Linux, and Git/GitHub through team-based projects.

Bachelor of Engineering in Electrical and Electronics Engineering **Sept 2021 - May 2026**
University of Abuja

- Currently pursuing B.Sc. Electrical Engineering, integrating software skills in C, Python, and MATLAB for embedded and control systems.
 - Applying coding, simulation, and problem-solving techniques to real-world engineering projects.
-

ADDITIONAL INFORMATION

- **Technical Skills:** Node.js, Express.js, Typescript, Next.js, Python, PostgreSQL, MongoDB, Redis
- **Certifications:** Certified Software Engineer ALX
- **Project: Binocs**, a web3 software platform that integrates AI for smart trading.
